Meeting in Lodz

The second meeting of the partners took place in Lodz, Poland on 3-4th June 2014. The aim of the meeting was to analyze the current status of the project and to discuss about next steps. The meeting was a good opportunity for the partners to make an analysis of the results from the research phase and based on these to plan the future tasks that focus on the development of the resources for both target groups in the project: seniors and trainers.

What we did up to now

The consortium conducted a first analysis in order to examine in details the needs of seniors in the area of ICT, and to examine the needs of trainers and adult education centres in the area of providing ICT trainings to seniors.

The seniors' questionnaires and trainers' questionnaires were realized in all partner countries (Spain, Germany, Romania, Poland, Greece and Turkey). In total, 439 completed questionnaires of seniors and 146 trainer questionnaires were included in the survey.

The executive summaries of the research phase are available on the project's website in all partners' languages: [EN](#), [GR](#), [TR](#), [RO](#), [ES](#), [DE](#), [PL](#).

NEWSLETTER 2

What we are doing now

Based on the results of the research phase, the consortium is working on the next phase to ensure the necessary infrastructure to support the learning process.

A self diagnosis tool ([EN](#), [GR](#), [TR](#), [RO](#), [ES](#), [DE](#), [PL](#)) has been developed in order to provide objective feedback at the level of individual learner for the piloting institutions in order to include them in the piloting sessions either in the group of basic learners or advanced learners.

What is next in the project

During the coming months a web platform for practical exercises (basic and advanced level) as well a technical and methodological handbook for trainers will be developed and tested.

According to the results of the research, reflecting the interests and needs of seniors, the topics covered on the web platform will include:

Basic practical exercises concept in all languages:

1. Basic use of computer
2. Google
3. Gmail
4. News
5. Facebook

Advanced practical exercises concept in all languages:

1. News
2. Facebook
3. Dealing with photos
4. Skype including installation of it
5. Tablet
